About Me

Product & UI/UX designer with experience designing end-to-end digital products across healthcare SaaS, community platforms, and open-source ecosystems. Skilled in UX research, interaction design, prototyping, and creating intuitive, scalable user experiences.

Experience

UI/UX Design Intern

Dec 2025 – Feb 2026

Cyparta

- Designed UI/UX for Healix and ATW healthcare systems serving US-based clients.
- Built role-based dashboards to streamline healthcare operations and workflows.
- Designed high-fidelity Figma prototypes for medical reporting and real-time logistics management.
- Collaborated with developers and product teams across 75+ responsive screens.

Co-Founder & Brand Designer

Jul 2025 – Nov 2025

Vibora

- Led visual identity and client-facing brand design for a digital printing agency.
- Designed marketing creatives, social assets, and branding materials for multiple clients.
- Worked directly with customers to understand requirements and deliver conversion-focused visuals.

Senior GB Volunteer

Aug 2025 – Present

AIESEC

- Collaborated with cross-cultural teams to support global volunteering initiatives.
- Assisted in communication, coordination, and stakeholder engagement activities.
- Strengthened leadership, teamwork, and empathy-driven problem-solving skills.

Education

Scaler School of Technology (Affiliated with BITS Pilani)

2024 – 2027

Bachelor of Computer Science

Bangalore, India

Projects

Flotilla | Open Source Product Contribution (SOB) · UI/UX Design

- Redesigned Flotilla's profile experience to reduce redundancy between search cards, preview modals, and profile pages.
- Designed responsive desktop and mobile flows with improved hierarchy, trust signals, and navigation.
- Collaborated with the open-source team through iterative feedback and high-fidelity Figma prototypes.

Healix & ATW | Healthcare SaaS Systems · Product & UI/UX Design

- Designed UI/UX for healthcare transportation systems serving US-based clients.
- Built role-based dashboards for admins, vendors, and emergency responders to streamline workflows.
- Created responsive Figma prototypes for fleet tracking, medical reporting, and operational management.

SurveySurf | UI/UX & Frontend

- Designed and developed the frontend UI for SurveySurf with a focus on usability and interaction design.
- Built responsive interfaces and improved user flows for survey creation and dashboard experiences.
- Focused on accessibility, visual hierarchy, and seamless cross-device experiences.
